

## Reference Letter for Hennessey Group

To Whom it May Concern,

It is with great honor and pleasure that I recommend the Hennessey Group for CHPA Accreditation. I remember meeting Kristi at her very first CHPA conference. I knew right away she was going to grow a company into a huge success. She has proven me right!

Our company booked our first reservation with the Hennessey group in 2018. Today, our client is still there and plans to stay at least until 2020. They make us look good! If we have a cable or internet issue, they respond immediately. Our client has been very pleased with the linen service they provide as well as housekeeping.

In Puerto Rico, I had the opportunity to meet Misty Stewart for the first time. She is a go-getter and very hard working. She has always been extremely helpful and even gave me her cell phone number when we had an after-hours emergency. It is inevitable in the corporate housing world that something can go haywire. However, it is up to the provider in how they respond which can make or break the deal. The Hennessey Group has shown us how capable they are in keeping up with the demand.

Kayce Hyatt, the CFO, is a huge asset to the Hennessey Group. She is smart, witty and funny. She manages quite a bit and is extremely impressive! She leads a team that has grown over the years and clearly embodies the character trademarks of companies who truly help others. They have distinguished themselves in our industry and can offer a unique "extended stay the Hennessey way."

I give my very strongest recommendation for Hennessey Group to receive their accreditation from CHPA.

All the best,

Caroline Salcedo, CCHP  
Director of Relocation and Business Development  
Apartment & Relocation Center
